CERTIFICATE OF ANALYSIS

Product	Formaldehyde, solution 37% w/w, extra pure, Pharmapur®, Ph Eur, BP, USP, stabilized with approx. 10% of methanol	Batch	19917501
		Quality release date	13/06/2019

FO0010

Expiry date 12/2020

Analysis	Batch value	Specifications
Assay (Acidimetric)	36,24 %	34,5 - 38,0
Identification	passes test	passes test
Density (20°/4°)	1,0949 g/mL	1,080 - 1,101
Appearance of solution	colourless	colourless
Acidity	passes test	passes test
Methanol (G.C.) (v/v)	10 %	9 - 15
Residue on ignition	< 0,1 %	≤ 0,1

Preparation

Contains methanol as stabilizer

Measurement

Batch value certified at the time of measurement. The batch value may change due to unavoidable variations.

Residual solvents are analysed according to guideline CPMP/ICH/283/95.

Storage and use

If the product is stored and unopened, this solution is stable for 1,5 years from the date of manufacturing.

Keep tightly closed in a dry and fresh place at room temperature.

The assay should be checked before use. Due to certain polymerisation of Formaldehyde, the appearance of some white precipitate corresponding to Paraformaldehyde is usual in the bottles. The formation of this substance may vary from bottle to bottle.

Results marked with # are out of specifications.

This certificate does not exempt the user from checking the results upon receipt of the goods.
