CERTIFICATE OF ANALYSIS**FO0010_23558001/1****Product** Formaldehyde, solution 37% w/w, Pharmpur®, Ph Eur, BP, USP,
stabilized with methanol**Batch** 23558001**Quality release date** 17/02/2023**Expiry date** 08/2024**FO0010**

Analysis	Batch value	Specifications
Assay (Acidimetric)	36,19 %	34,5 - 38,0
Identification C (EP)/A (USP)	passes test	passes test
Identification A (EP)	passes test	passes test
Identification B (EP/USP)	passes test	passes test
Appearance of solution	colourless	colourless
Methanol (G.C.) (v/v)	10,0 %	9,0 - 15,0
Acidity	passes test	passes test
Residue on ignition	< 0,1 %	≤ 0,1

Preparation

Contains methanol as stabilizer.

Measurement

Batch value certified at the time of measurement. The batch value may change due to unavoidable variations.

Storage and use

If the product is stored and unopened, this solution is stable for 1,5 years from the date of manufacturing.

Keep tightly closed in a dry and fresh place at room temperature.

The assay should be checked before use. Due to certain polymerisation of Formaldehyde, the appearance of some white precipitate corresponding to Paraformaldehyde is usual in the bottles. The formation of this substance may vary from bottle to bottle.

This product is intended to be suitable for the manufacture of pharmaceuticals, medical devices, cosmetics and food products, but is entirely under the user's responsibility.
